    data3="";
}

```

WOKWI LINK: <https://wokwi.com/projects/347633966525710930>

WOKWI OUTPUT:

The screenshot shows the Wokwi IDE interface. On the left, the 'sketch.ino' file is open, displaying the following code:

```
1 #include <wifi.h> //library for wifi
2 #include <PubSubClient.h> //library for MQTT
3
4
5 void callback(char* topic, byte* payload, unsigned int payloadLength);
6
7 //-----credentials of IBM Accounts-----
8
9 #define ORG "7jccke" //IBM ORGANIZATION ID
10 #define DEVICE_TYPE "raysdevice" //Device type mentioned in ibm watson IOT Platform
11 #define DEVICE_ID "05081201" //Device ID mentioned in ibm watson IOT Platform
12 #define TOKEN "rayscalin" //Token
13 String data3;
14 float dist;
15
16 //----- Customise the above values -----
17
18 char server[] = ORG ".messaging.internetofthings.ibmcloud.com"; // Server Name
19 char publishTopic[] = "iot-2/evt/Data/fmt/json"; // topic name and type of event perform a
20 char subscribTopic[] = "iot-2/cmd/test/fmt/String"; // cmd REPRESENT command type AND CO
21 char authMethod[] = "use-token-auth"; // authentication method
22 char token[] = TOKEN;
23 char clientId[] = "d:" ORG ":" DEVICE_TYPE ":" DEVICE_ID; //client id
24
25 //-----
26 WiFiClient wificlient; // creating the instance for wificlient
27 PubSubClient client(server, 1883, callback, wificlient); //calling the predefined client
28
29
30 int LED = 4;
31 int trig = 5;
32 int echo = 18;
33 void setup()
34 {
35   Serial.begin(115200);
36   pinMode(LED, OUTPUT);
37 }
```

On the right, the 'Simulation' window shows a visual representation of the hardware: an ESP32 microcontroller, an HC-SR04 ultrasonic sensor, and a red LED. The simulation log displays the following output:

```
no object found
Sending payload: {"distance":403.49,"object":"No"}
Publish ok
Distancein cm403.49
no object found
Sending payload: {"distance":403.49,"object":"No"}
Publish ok
```

IBM CLOUD OUTPUT:

The screenshot shows the IBM Watson IoT Platform dashboard. The 'Browse' tab is selected, displaying a table of devices. The device '05081201' is highlighted, and its details are shown in the 'Recent Events' tab.

Device ID	Status	Device Type	Class ID	Date Added	Descriptive Location
05081201	Connected	raysdevice	Device	Nov 4, 2022 9:23 AM	

The 'Recent Events' tab shows a list of events:

Event	Value	Format	Last Received
Data	{"distance":403.49,"object":"No"}	json	a few seconds ago
Data	{"distance":403.49,"object":"No"}	json	a few seconds ago
Data	{"distance":403.49,"object":"No"}	json	a few seconds ago
Data	{"distance":403.49,"object":"No"}	json	a few seconds ago
Data	{"distance":403.49,"object":"No"}	json	a few seconds ago

At the bottom of the dashboard, it indicates '0 Simulations running'.
